

Jeroen Van Schependom

Curriculum Vitae

Cognitive impairment affects approximately every other person with multiple sclerosis. Yet, how MS affects cognitive functioning is only poorly understood, and treatments are lacking. My team unravels the neurophysiological processes underlying normal and impaired cognitive functioning by taking advantage of novel descriptions of brain functioning. In addition, we are developing novel non-invasive neuromodulation treatments for cognitive impairment in MS. These challenging research questions require a strong interdisciplinary team and I am the proud supervisor of a team with biomedical and electronic engineers, neurologists, and rehabilitation physicians.

Experience

2024-2029 **Tenured Research Professor (Hoofddocent), VUB.**
2022-Present **Elected member of the Jonge Academie.**
2021-2023 **Fellow of EUTOPIA Young Leadership Academy, VUB.**
2021-2022 **Sidekick Vice Rector Research and Development, VUB.**
2020-Present **Vice Chair AI Supported Modelling in Clinical Sciences (AIMS), VUB.**
2019-Present **Research Professor (Docent), Vrije Universiteit Brussel.**
2018-2019 **Secretary, Scientific steering group National MS Centre Melsbroek.**
2019-2019 **Visiting Researcher, Computational Neuroscience Group, UPF Barcelona.**
2016-2019 **FWO Post-Doc, Vrije Universiteit Brussel, Center for Neurosciences.**
2016-2017 **Visiting Researcher, University of Oxford, Oxford Centre for Human Brain Activity.**
2014-2016 **Internship, IcoMetrix NV, R&D.**
2012-2016 **FWO Aspirant (PhD candidate), Vrije Universiteit Brussel - UMONS, Center for Neurosciences-Faculté de Psychologie et des sciences de l'Education.**
2011-2012 **PhD candidate, UMONS, Faculté de Psychologie et des sciences de l'Education.**

PhD Thesis

Joint PhD - Vrije Universiteit Brussel - Université de Mons

- Title **Cognitive Impairment in MS: Statistical and Neurophysiological aspects**
- Supervisors Prof. Dr. Marie-Claire Haelewyck, Prof. Dr. Marie B D'hooghe, Prof. Dr. Jacques De Keyser & Prof. Dr. ir. Guy Nagels
- Description This thesis assessed the evolution of cognitive impairment in MS and explored the possibility of using EEG as a biomarker for this cognitive decline using advanced classification schemes.
- Defended on 5 May 2015

Supervision

- Ongoing **Supervisor**, *VUB-Faculty of Engineering*.
- PhDs
- Fahimeh Akbarian, E-I inhibition ratio in neurodegenerative diseases
 - Gaia Zin, Leveraging neurocomputational models to extract a novel biomarker of information processing speed in MS
 - TBD, Optimisation of tDCS to enhance brain perfusion in MS
- Ongoing **Supervisor**, *VUB-Faculty of Medicine and Pharmaceutical sciences*.
- PhDs
- Chiara Rossi, FWO Aspirant, MEG brain dynamics in MS patients
 - Thomas Scheinok, Neurology registrar, Development of novel neuromodulation paradigms to enhance remyelination.
 - Kristien Cool, starting Oct 2024, Restoring brain perfusion in MS
 - Olivier D Burta, starting Oct 2024, Brain dynamics of information processing speed in MS
- Co-supervisor**, *VUB-Faculty of Medicine and Pharmaceutical Sciences*.
- Delphine Van Laethem, Cognitive-motor telerehabilitation in multiple sclerosis
- Defended **Co-supervisor**, *VUB-Faculty of Medicine and Pharmaceutical Sciences*, Defended.
- 30/01/2024 **Stijn Denissen**, *Structural brain damage and cognition in MS: an AI approach*.
- 30/03/2023 **Johan Baijot**, *Neurophysiological aspects of cognitive deterioration in multiple sclerosis*.
- 27/04/2021 **Lars Costers**, *An MEG investigation into working memory*.
- 24/09/2018 **Jeroen Gielen**, *MRI measures in the assessment of cognitive function in MS*.
- 18/09/2017 **Jorne Laton**, *Machine learning techniques to improve the value of neurophysiological measurements for individual patients*.
- Master theses **Supervisor**.
- I have supervised several master thesis at the Faculty of Engineering (Master of science in biomedical engineering) on GPU processing to speed up permutation tests, assessment of the intracerebral conduction velocity in vivo and transient brain dynamics. Further, I have co-supervised several students from the Faculty of Medicine and Pharmacy with different topics on the application of neuroimaging to different neurological pathologies.

Education

- 2020 **FELASA - Cat C**, *UGent*.
- 2019 **Certificate of Good Clinical Practice**, *UZ Leuven*.
- 2011–2015 **Joint PhD**.
- Medical Sciences, VUB, Brussels
 - Psychological Sciences, UMONS, Mons

- 2009–2011 **Master of Science in Engineering Physics**, *UGent*, Ghent.
Highest distinction
- 2006–2009 **Bachelor of Science in Engineering Physics**, *UGent*, Ghent.
High distinction
- 2001–2006 **Greek-Mathematics**, *Sint-Jozef-Klein-Seminarie*, Sint-Niklaas.
Highest distinction
- 2011–2015 **Workshops**.
- 2015 - MEG workshop - Oxford Centre for Human Brain Activity (OHBA)
 - 2012 - EEGlab workshop - Tsingua University - Beijing
 - 2012 - SPM8 workshop - University College London
- 2011–2015 **PhD Training**, *Vrije Universiteit Brussel/UMons*.
Project planning, Presentation Skills
- 2011–2015 **Extra Courses**.
- Datamining and machine learning (KULeuven, prof. J Suykens)
 - Least-Squares Support Vector Machines (KULeuven, prof. J Suykens)
 - Statistical Foundations of Machine Learning (VUB/ULB, prof. G. Bontempi)
 - Coursera.org: Statistical analysis of fMRI data (Prof. Martin Lyndquist), Machine Learning (Prof. Andrew Ng), Computing for Data Analysis (Prof. Roger Peng), Computational Neuroscience (Prof. Rajesh Rao)
- 2010–2011 **Extra Courses**, *UGent*, Ghent.
Group Theory, NMR
- 2010–2010 **7th International Esarda course: Nuclear safeguards and non-proliferation**, *Joint Research Center Ispra*, Italy.
- 2009–2010 **Erasmus**, *Universidad Complutense de Madrid*, Madrid.

Honours/Awards/Grants

- Supervisor **2024 - Oral presentation at American Academy of Neurology (Denver)**
Transcranial Alternating Current Stimulation as a Potential Remyelination Therapy for MS - Thomas Scheinok
- 2023 - Abstract merit award** awarded to Fahimeh Akbarian at OHBM 2023 Montreal
- 2022 - Oral presentation** by Chiara Rossi at the 2022 OHBM Glasgow meeting
- Promotor **2023 - Flanders Research Foundation:FWO-Project** - Transcranial direct current stimulation as a new, personalised add-on treatment for regional brain perfusion in people with MS (566 500 EUR)
- 2023 - EUTOPIA**: Leveraging neurocomputational models to extract the intracerebral conduction velocity as a novel non-invasive marker of information processing speed in multiple sclerosis., 200k; Joint Ph.D. project with Cergy (Thanos Manos)
- 2022 - Belgian Charcot Foundation**: Disentangling cognitive functioning and visual scanning deficits in cognitive test results in MS, 45k EUR
- 2022 - Innoviris**: DetectDem - A novel test strategy to follow up patients at risk of developing dementia, 1.2M EUR

2020 - Flanders Research Foundation:FWO-Project (G042821N) - Prolonged transcranial alternating current stimulation leveraging new stimulation paradigms and set-ups as a treatment to promote remyelination in cuprizone treated mice (492.250 EUR)

2020 - VUB:IOF PoC: aSOMI - a State of Minds Interface (68.151 EUR)

2020 - Flanders Research Foundation: FWO-aspirant mandate - Chiara Rossi (11K2821N) - Unravelling cognitive functioning in healthy and multiple sclerosis through the analysis of transiently bursting brain networks at milliseconds time scale

2019 - Belgian Charcot Foundation: Application of transcranial Alternating Current Stimulation to enhance remyelination (39.000 EUR)

Awards **2019 - Marie Curie Individual Fellowship** - Seal of Excellence

2018 - Belgian Neurological Society - Research Prize 2018

2017 - Flanders Research Foundation - Krediet aan Navorser (38.300 EUR)

2016 - Flanders Research Foundation - Postdoc: How brain structure influences brain functioning, a mechanistic model to improve our understanding of cognitive impairment in Multiple Sclerosis

2011 - Flanders Research Foundation - Research scholarship (FWO-Aspirant): On the neurophysiology of cognitive deterioration in Multiple Sclerosis

Co-promoter **2024 - FWO Postdoctoral Fellowship** - Leveraging recent advances in explainable AI to decode cognitive functioning from T1/FLAIR weighted MR images in MS - An international federated learning approach (Stijn Denissen; 300k)

2021 - FWO aspirant - Telerehabilitation in MS (Delphine Van Laethem; 200k)

2021 - FWO Postdoctoral fellowship - Development of a neurovascular coupling biomarker for cognitive impairment in MS by a novel multimodal data fusion framework (Frederik Van de Steen; 300k)

2020 - Innoviris - Joint R&D - Data governance in the development of machine learning algorithms to predict neurodegenerative disease evolution

2019 - VLAIO - Creating the MS compass of the future: imaging AI to predict disease progression. Stijn Denissen; 200k

2017 - Flanders Research Foundation - Research scholarship (FWO-Aspirant): Lars Costers, 200k

2014 - Belgian Charcot Foundation: Graph-theoretical analysis of magnetoencephalographic recordings as biomarker for cognitive deterioration in Multiple Sclerosis (37.000 EUR)

2014 - Genzyme-Sanofi:Graph-theoretical analysis of magnetoencephalographic recordings as biomarker for cognitive deterioration in Multiple Sclerosis (430.000 EUR)

Travel Grants **Flanders Research Foundation** - Six month research stay at University of Oxford
- Six month research stay at Universitat Pompeu Fabra - European Science Open Forum

ECTRIMS - Based on paper merit

Computer skills

Matlab, R, Python, Linux, SPM, EEGLab, PsychToolbox

Communication Skills

- 2024 **Scheduled invited Talk:** "Artificial Intelligence will change cognitive MS care within the next 10 years: No " - International MS Cognition Society, Bern, Switzerland
- 2023 **Invited Talk:** "Artificial Intelligence will change neurorehabilitation within the next 10 years: No " - Presentation for the Belgian Society of Neurorehabilitation, Brussels, Belgium
- 2023 **Invited Talk:** "Non-invasive Brain Stimulation Simulations " - Workshop on in silico-health, Leuven, Belgium
- 2023 **Invited Talk:** "Artificial Intelligence will change MS care within the next 10 years: No " - Presentation at the Royal Belgian Academy of Medicine, Brussels, Belgium
- 2021 **Invited Talk:** "Exploring the potential of non-invasive neuromodulation in multiple sclerosis " - Regional Chapter Meeting van de Benelux Neuromodulation Society, Paris, France
- 2016 **Invited Talk:** "Brain atrophy in Multiple Sclerosis" - 12th Workshop of the International School of Magnetic Resonance and Brain Function, Erice, Sicily
- 2016 **Invited Talk:** "From neuronal firing to whole-brain cortical networks - Application to MS" - 12th Workshop of the International School of Magnetic Resonance and Brain Function, Erice, Sicily
- 2013 **Oral Presentation** at the 2nd International Conference of the MS Cognition Society (IMSCOGS), Zürich, Switzerland
- 2011–Present Many oral presentations in an informal setting to a variety of audiences
- 2011–Present Posters at several conferences (Engineering, Psychology, Medical)

Symposia organisation

- 2024 [Accepted] Organiser of the symposium entitled "**Functional Connectivity Dynamics**" with co-organizers Diego Vidaure, Helen Zhou, and Vince Calhoun for the **2024 Human Brain Mapping Conference** in Seoul, Korea
OHBM is the primary international organization dedicated to neuroimaging. Each year, approximately 3,000 attendees gather together to attend top-notch scientific education, share their latest research, and discover new collaborations. In this symposium, we aim to present recent developments in how we look at FC and how we can leverage these developments to yield more insights into how cognition arises in healthy controls and how it is impaired in people with neurodegenerative diseases. The four speakers bring in a wide range of expertise, from clinical applications to model development and from fMRI to MEG.
- 2023 Organisation of an EUTOPIA EEG/MEG symposium with Ralph Adrzejak (UPF), Christian Beste (TU Dresden), and Kris Baetens (VUB) - 3-May-2015

2022 YLA symposium **Impact in Research** with several keynote speakers, including Angelica Marino (Policy Analyst DG Research and Innovatino at the European Commission), Angela Liberatore, (Head of the scientific management department at ERC) and Monica Dietl (research director of the French National Centre for Scientific research).

Teaching

- 2019–2020 **Erasmus Mundus programme, *Neurasmus***, Charité-Universitätsmedizin.
- Neurophysiological signal processing
- 2015–Present **Faculty of Medicine and Pharmaceutical Sciences (VUB).**
- Cellular Neurophysiology. Partim. Chemical and electrical communication
 - New therapeutic approaches to disorders of the central nervous system
 - Medical information and communication systems
 - Capita selecta voor de ziekenhuisarts, inclusief praktische oefeningen (co-titularis) - 3u HOC - ManaMa in de Specialistische Geneeskunde.
- 2015–Present **Faculty of Engineering - Master Biomedical engineering (VUB-UGent).**
- Modeling of physiological systems
 - Measurements and analysis of biomedical signals
 - Neurophysiological signal processing and graph network analysis
 - Computational Neurophysiology

Languages

- Mother tongue **Dutch**
- Fluent **English** *ITACE C1 level*
- French**
- Basic **German, Spanish** *Level: B1, B2*

Interests

Piano, Volleyball, Running

Reviewing duties

- 2023 I have served as a panel member (LS7) for the University Of Ljubljana
- 2012–Present I have served as a reviewer for *Communications Biology, Movement Disorders, Sensors, Neuroprotection, Computers in Biology and Medicine, Eye and Brain, Molecular Psychiatry, Brain, Journal of Clinical Medicine Clinical Neurology and Neurosurgery, Journal of Alzheimer's Disease, Neuropsychological rehabilitation, Neurotherapeutics, NeuroImage, NeuroImage: Clinical, Multiple Sclerosis Journal, Brain and Behaviour, International Journal of Molecular Sciences, PLOS ONE, European Journal of Neurology, International Journal of Medical Informatics, Diabetes, Metabolic Syndrome and Obesity: Targets and Therapy, Archives of clinical neuropsychology, Journal of Medical Imaging and Health Informatics, Journal of the Neurological Sciences* and the *Italian Ministry of Education, University and Research*.

I have been a jury member in the PhD defenses of Tatjana Reynders (VUB), Lindsey De Volder (VUB), Nora Vanderleen (ULiege), Ine Dirks (VUB), Pieter Boonen (VUB), Jolan Heyse (UGent)

Papers under review

Since 2014, I have co-authored 45 papers and 2 IEEE conference proceedings. I have published 15 papers as first author and eight as last author. This has led to a total of 989 citations, an h-index of 18 and a i10-index of 24 according to Google Scholar and 590 citations and an h-index of 14 according to Web of Science.
